September 2006

## **VA Programs for Homeless Veterans**

One-third of adult homeless men and nearly one-quarter of all homeless adults have served in the armed forces. While there is no true measure of the number of homeless veterans, it has been estimated that fewer than 200,000 veterans may be homeless on any given night and that twice as many veterans experience homelessness during a year. Many other veterans are considered at risk because of poverty, lack of support from family and friends and precarious living conditions in overcrowded or substandard housing. Ninety-six percent of homeless veterans are male and the vast majority are single. About half of all homeless veterans suffer from mental illness and more than two-thirds suffer from alcohol or drug use problems. Nearly 40 percent have both psychiatric and substance abuse disorders.

The Department of Veterans Affairs (VA) is the only federal agency that provides substantial hands-on assistance directly to homeless people. Last year, VA provided health care to more than 100,000 homeless veterans and other services to over 60,000 veterans in its specialized homeless programs. More than 40,000 homeless veterans receive compensation or pension benefits annually. Although limited to veterans and their dependents, VA's major homeless programs constitute the largest integrated network of homeless assistance programs in the country, offering a wide array of services to help veterans recover from homelessness and live as self-sufficiently and independently as possible. Nearly three-quarters of homeless veterans we have contacted use VA health care and 55 percent have used VA homeless services.

VA, using its own resources or in partnerships with others, has secured more than 15,000 residential rehabilitative, transitional and permanent beds for homeless veterans throughout the nation. VA spends more than one billion dollars from its health care and benefit assistance programs to assist homeless and at-risk veterans. To increase this assistance, VA conducts outreach to connect homeless veterans to both mainstream and homeless-specific VA programs and benefits. These programs strive to offer a continuum of services that include:

- Aggressive outreach to veterans living on the streets and in shelters who otherwise would not seek assistance;
- Clinical assessment and referral for treatment of physical and psychiatric disorders, including substance abuse;
- Long-term transitional residential assistance, case management and rehabilitation; and,
- Employment assistance and linkage with available income supports and permanent housing.

## **Homeless Veterans 2/2/2/2**

VA has awarded more than 400 grants to public and nonprofit groups to assist homeless veterans in all states and the District of Columbia to provide transitional housing, service centers and vans to provide transportation to services and employment.

VA sponsors and supports national, regional and local homeless conferences and meetings, bringing together thousands of homeless providers and advocates to discuss community planning strategies and to provide technical assistance in such areas as transitional housing, mental health and family services, education and employment opportunities for the homeless.

### **Homeless Programs**

VA's Health Care for Homeless Veterans Program (HCHV) operates at 132 sites, where extensive outreach, physical and psychiatric health exams, treatment, referrals and ongoing case management are provided to homeless veterans with mental health problems, including substance abuse. This program makes assessments and referrals for more than 40,000 veterans annually.

VA's Domiciliary Care for Homeless Veterans (DCHV) Program provides medical care and rehabilitation in a residential setting on VA medical center grounds to eligible ambulatory veterans disabled by medical or psychiatric disorders, injury or age and who do not need hospitalization or nursing home care. There are more than 1,800 beds available through the program at 34 sites. The program provides residential treatment to more than 5,000 homeless veterans each year. The domiciliaries conduct outreach and referral; admission screening and assessment; medical and psychiatric evaluation; treatment, vocational counseling and rehabilitation; and post-discharge community support.

Veterans Benefits Assistance at VA Regional Offices is provided by designated staff members who serve as coordinators and points of contact for homeless veterans. Homeless coordinators at VA regional offices provide outreach services and help expedite the processing of homeless veterans' claims. The Homeless Eligibility Clarification Act allows eligible veterans without a fixed address to receive VA benefits checks at VA regional offices. VA also has procedures to expedite the processing of homeless veterans' benefits claims. Last year more than 34,000 homeless veterans received assistance and nearly 4,000 had their claims expedited by staff members.

Acquired Property Sales for Homeless Providers Program makes properties VA obtains through foreclosures on VA-insured mortgages available for sale to homeless providers at a discount of 20 to 50 percent. To date, more than 200 properties have been sold. These properties have been used to provide homeless people, including veterans, with over 400,000 sheltered nights in VA acquired property since the program began.

Readjustment Counseling Service's Vet Centers provide outreach, psychological counseling, supportive social services and referrals to other VA and community programs. Every Vet Center has a homeless veteran coordinator assigned to make sure services for homeless veterans are tailored to local needs. Annually, the program's 207 Vet Centers see approximately 130,000 veterans and provide more than 1,000,000 visits to veterans and family members. More than 10,000 homeless veterans are served by the program each year.

Veterans Industry/Compensated Work-Therapy (CWT) and Compensated Work-Therapy/Transitional Residence (TR) Programs Through its CWT and TR programs, VA offers structured work opportunities and supervised therapeutic housing for at-risk and homeless veterans with physical, psychiatric and substance abuse disorders. VA contracts with private industry and the public sector for work by these veterans, who learn new job skills, re-learn successful work habits and regain a sense of self-esteem and self-worth. Veterans are paid for their work and, in turn, make a payment toward maintenance and upkeep of the residence. VA operates 66 homes with more than 520 beds in transitional residences. Nine sites with 18 houses serve homeless veterans exclusively. Two-thirds of all CWT and TR beds served homeless veterans. There are more than 140 CWT operations nationwide. Approximately 14,000 veterans participate in CWT programs annually.

VA's National Cemetery Administration and Veterans Health Administration have formed partnerships at national cemeteries, where formerly homeless veterans from the CWT program have received therapeutic work opportunities while providing VA cemeteries with a supplemental work force.

HUD-VA Supported Housing (VASH) Program, a joint program with the Department of Housing and Urban Development (HUD), provides permanent housing and ongoing treatment to homeless mentally ill veterans and those suffering from substance abuse disorders. HUD's Section 8 voucher program has designated more than 1,400 vouchers worth \$44.5 million for chronically mentally ill homeless veterans, and VA personnel at 34 sites provide outreach, clinical care and case management services. This approach significantly reduces homelessness for veterans plagued by serious mental illness and substance abuse disorders.

VA's Supported Housing Program allows VA personnel to help homeless veterans secure long-term transitional or permanent housing. They also offer ongoing case management services to help the veterans remain in housing they can afford. VA staff work with private landlords, public housing authorities and nonprofit organizations to find housing arrangements. Veteran service organizations have been instrumental in helping VA establish these housing alternatives nationwide. VA staff at 20 supported housing program sites helped more than 1,500 homeless veterans find transitional or permanent housing in the community.

## **Homeless Veterans 4/4/4/4**

Stand Downs are one-to three-day events that provide homeless veterans a variety of services and allow VA and community-based service providers to reach more homeless veterans. Stand downs give homeless veterans a temporary refuge where they can obtain food, shelter, clothing and a range of community and VA assistance. In many locations, stand downs provide health screenings, referral and access to long-term treatment, benefits counseling, ID cards and access to other programs to meet their immediate needs. Each year, VA participates in more than 100 stand downs coordinated by local entities. Surveys show that more than 20,000 veterans and family members attend these events annually with more than 13,000 volunteers.

VA Excess Property for Homeless Veterans Initiative provides federal excess personal property, such as clothing, footwear, sleeping bags, blankets and other items, to homeless veterans through VA domiciliaries and other outreach activities. This initiative has been responsible for the distribution of nearly \$150 million in material and currently has more than \$15 million in inventory. This initiative employs formerly homeless veterans to receive, warehouse and ship these goods to homeless programs across the country that assist veterans.

The Homeless Providers Grant and Per Diem Program provides grants and per diem payments to help public and nonprofit organizations establish and operate new supportive housing and service centers for homeless veterans. Grant funds may also be used to purchase vans to conduct outreach or provide transportation for homeless veterans. Since the program's inception in fiscal year 1994, VA has awarded more than 400 grants to faith and community-based service providers, state or local government agencies and Native American tribal governments in all states and the District of Columbia.

Up to 20,000 homeless veterans are expected to receive supported housing under this program annually in more than 10,000 beds.

Project CHALENG (Community Homelessness Assessment, Local Education and Networking Groups) for Veterans is a nationwide initiative in which VA works with other federal, state and local agencies and nonprofit organizations to assess the needs of homeless veterans. CHALENG groups have held conferences, developed directories of local resources available to homeless veterans and established local action plans to fight homelessness and prepare strategies for future actions.

Program Monitoring and Evaluation conducted by the Northeast Program Evaluation Center at the VA Connecticut Health Care System provides important information about the veterans served and the therapeutic value and cost-effectiveness of VA's specialized homeless programs. Information from these evaluations also helps program managers determine new directions for expanding and improving services to homeless veterans. VA conducted a one-day census to determine the extent of homelessness among veterans in VA's acute inpatient programs (1995-2000) and found that one-quarter of all veterans in VA beds were homeless.

## Homeless Veterans 5/5/5/5

### Initiatives

The Multifamily Transitional Housing Loan Guarantee for Homeless Veterans Program has made conditional commitments to two projects to establish housing for formally homeless veterans. Efforts continue to locate additional projects.

VA's 15-member Advisory Committee on Homeless Veterans submitted its fourth annual report to provide advice and recommendations to the Secretary of Veterans Affairs on the provision of benefits and services to homeless veterans.

Nine new Domiciliary Residential Rehabilitation Treatment Programs (DRRTP) have been funded to address the needs of homeless veterans. New DRRTPs will be located in areas identified as having the greatest need. This funding will add 408 additional beds to the homeless DRRTPs to serve homeless veterans. This will bring the total number of programs to 43 with over 2,000 operational beds.

VA is working to expand dental care to homeless veterans.

VA will expand Veterans Industry/Compensated Work Therapy Program to twenty five additional facilities. When the expansion is completed the VA will have over 150 Compensated Work Therapy Programs.

VA has initiated outreach to veterans at risk of homelessness who are being discharged or released from incarceration. State-specific resource guides for incarcerated veterans have been developed that provide contact information and outline steps that veterans can take to plan their re-entry into the community.

For more information, visit the VA website at [www.va.gov](http://www.va.gov) or contact VA's Homeless Veterans Programs Office at (202) 273-5764, or e-mail VA at [homelessvets@mail.va.gov](mailto:homelessvets@mail.va.gov)
